

*A*s we enjoy Christmas TV specials this year, no doubt taking in a re-run of a Christmas Carol (Ebenezer Scrooge), I invite you to consider our version of Christmas Present and Christmas Future.

It's the theme for our List of Life this year.

We can touch lives both now and in future with our gifts.

Join us.

*Merry Christmas from all of us in the
High Adventure family!*

Christmas Present

*\$*20

Provide a Bible

What can be a better gift than the Word of God in one's own language. We have an ongoing bible distribution program for refugees, prisoners and disadvantaged women who struggle with current living challenges in African communities. They need to find hope within the eternal pages of Scripture.

Provide Training for a Woman

Train rural women, with basic training and equipping for skills that include liquid soap making; knitting, washable sanitary pad making and much more.

*\$*20

*\$*2

Plant a Coffee Tree

Difficult weather conditions have impacted some of our coffee trees, requiring replacement. We have lost 600 trees on our 5-acre site and 300 on our 6-acre site.

Provide Security

Help us monitor and secure our Coffee trees with solar powered cameras

*\$*300

Provide a Solar Radio

Help us give hope to refugees in camps within Uganda and Kenya. A solar powered radio links a refugee to our Christian radio station near them.

*\$*20

Christmas **Present**

*\$*3,000

Provide a Tricycle Farm Tractor

Our coffee trees will bring a much-expanded yield by Spring '26 which means pastor equipping can be supported in greater measure. But we need a farm vehicle to transport coffee beans from the fields to the husking machine. We have been saving towards this long-term harvest equipment, but still need help to make the purchase.

Christmas **Future**

Christmas **Future**

Christmas Future

\$100

Equip a Pastor

Join us with an investment into East Africa's future by equipping pastors with Life Essentials Study Bible training. Each equipped pastor will impact many thousands with accurate biblical messaging for years to come.

Equip a Class

\$1,000

Turn Trees into a Truck

Our coffee project planted on 5 different locations needs considerable care and support but our old Toyota pick up has been rebuilt 4 times, including several frame-re-welding's; this 1996 truck is nearing end of life at a time when its most needed for expanding harvest.

Select eucalyptus trees are used as telephone poles and much in demand. 2,000 such trees can replace this old truck in 6 years when trees mature, but we need seedling investment now.

\$2 a tree x 2,000

\$1,500 a light

Provide Solar Powered Street Lights

Help us bring Christmas Future to two communities with solar powered street lighting.

#1 Our new Desert Stream radio station sits at the top of a very dark street at the edge of Amuria Town, where no light exists. As community members come to minister on our radio, they need safety that light can bring.

#2 Our partner Ongutoi Health Centre orange orchard is now producing support for health care but visiting thieves have begun to steal and damage the trees during dark hours. Night time lighting can prevent such attack and preserve future support.
